

Unemployment and the most requested occupations in Latvia and Jaunpils

Linda Grāvīte

Unemployment in Latvia

- The registered unemployment rate in the country has fallen to 8.1% (77425 people)
 - It is 0.2% less than in the previous month.
- The lowest unemployment level is in the capital city – Riga – 5.2%
- But the highest in Rezekne – 15%

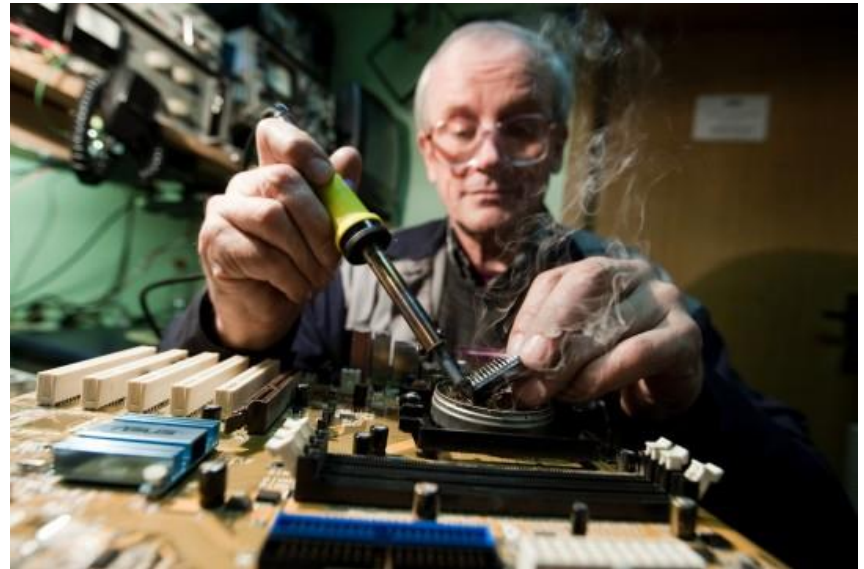

Unemployment in Jaunpils

- In Jaunpils district in the early summer, there were 56 unemployed people, which is only 3.7% of the district's total population.

The most requested occupations in Latvia

- The highest demand now is for skilled workers and craftsmen as well as plant and machine operators and assemblers.

The most requested occupations in Jaunpils

- Our district has got 3 companies which are glad to intake new workers:
 - A/S “Jaunpils pienotava” – milk factory
 - SIA “Līvas grupa” – producer of windows, wooden structures and even houses
 - joinery company in the village Jurgī
